Portfolio

SUMMARY

Software engineer and data analyst building full-stack web applications and turning complex data into clear business intelligence with Python, React, C#, and SQL. Works AI-assisted (Claude, ChatGPT, GitHub Copilot) to research, prototype, and adopt new stacks quickly, and automates workflows with Zapier and n8n.

WORK EXPERIENCE

Full Stack Developer ***June 2026 - Present***

YV2: Ollie Baldemor - Book Website & Web Platform

- Develop and maintain the official website for YV2, Ollie Baldemor's book on applying software techniques to real-life situations.
- Built the Python Flask backend with a MySQL database, REST endpoints, and bcrypt-hashed authentication, paired with a responsive HTML, CSS, and JavaScript frontend.
- Integrated the Google Gemini API and Chart.js to deliver AI-assisted features and data visualizations, deployed on Vercel.

Software Engineer – Full Stack & AI | Project-Based ***May - August 2026***

Government Agency - Disaster Risk Management Information System (DRRMIS)

- Built a production web-based DRRMIS across the frontend, API layer, backend, and database using C#, ASP.NET Core, React.js (Vite), Bootstrap, RESTful APIs, MySQL, and Microsoft Azure, with Git/GitHub for source control.
- Translated stakeholder requirements into features through requirements analysis, Waterfall SDLC practices, normalized schema design, API integration, automated testing, authentication, deployment, and technical documentation.
- Led vulnerability testing, debugging, log analysis, and query optimization for secure role-based authentication, safeguarding sensitive civic records and improving reliability.

Finance and Data Analytics Intern ***March - May 2026***

I-Merch Media Incorporated - Mandaluyong City, Metro Manila

- Managed and validated financial data for 32 client companies, building Excel reports and dashboards and supporting the consolidation of Q1 2026 financial reports involving approximately ₱300M in assets.
- Used QuickBooks and Microsoft Excel (XLOOKUP, VLOOKUP, LET, PivotTables, VBA macros, data validation) to organize, reconcile, and analyze records, cutting manual data entry.
- Investigated data discrepancies and prepared reports supporting financial analysis and data-driven decisions.

PROJECTS

LeadFlow AI – CRM & Sales Automation Platform *ASP.NET Core, React, MySQL, Zapier*

- Built a CRM that captures website inquiries with duplicate detection, scores leads with AI against an editable rubric (each point cites its source sentence and can be overridden), and moves them through a drag-and-drop pipeline.
- Automated follow-ups through Zapier with Gmail and Google Sheets, with a human approval step before any customer email is sent.

StatEase Analytics – No-Code Statistics Web App *React, TypeScript, FastAPI, PostgreSQL, DuckDB*

- Reads Excel/CSV data and study objectives, then recommends and runs the right tests (29 procedures, t-tests to regression), checks assumptions, and exports APA-style results.

PoultryConnect – Farm Management & Marketplace Platform *Python, Flask, MySQL, scikit-learn*

- Shipped an egg-ordering marketplace connecting customers with farm owners, with orders, real-time messaging, and authentication, plus sales, production, and mortality forecasting using pandas and scikit-learn.

DigiSPES – Employment Management Information System *Python, Flask, MySQL, Tesseract OCR*

- Built with government officials in Baybay, Laguna: SPES applications, exams, and beneficiary management, with OCR requirement verification, automated exam checking, and a chatbot.

EDUCATION

Bachelor of Science in Information Technology ***September 2022 - June 2026***

Laguna State Polytechnic University, *Magna Cum Laude, DOST-SEI Recipient, Best in Capstone, Academic Proficiency, SSC Leadership Awardee*

TECHNICAL SKILLS

Full-Stack Development
C#, ASP.NET Core, .NET, Python, Flask, FastAPI, JavaScript, TypeScript, React.js, Node.js, Express, HTML, CSS, Tailwind CSS, Bootstrap, RESTful APIs, Kotlin, PHP

AI & Automation
AI-Assisted Development, Prompt Engineering, LLM API Integration (Gemini, OpenAI), Zapier, n8n, Workflow Automation, ChatGPT, Claude, GitHub Copilot, Perplexity, DeepSeek

Software Engineering
SDLC, Agile, Scrum, Waterfall, Requirements Gathering, System Analysis, Software Testing & QA, Debugging, Authentication & Authorization, Technical Documentation

Data & Analytics
SQL, MySQL, PostgreSQL, SQL Server, SQLite, DuckDB, Oracle, pandas, NumPy, Polars, scikit-learn, Tableau, Advanced Excel (VBA, PivotTables), Chart.js, ECharts

Cloud, Deployment & DevOps
Vercel, Render, Railway, Microsoft Azure, Aiven, Firebase, Docker, Git, GitHub, CI/CD, Application & Database Deployment

Tools & Productivity
Visual Studio Code, PyCharm, Android Studio, Antigravity, XAMPP, Three.js, Microsoft Office, Google Workspace, Canva

CERTIFICATIONS

- IT Specialist – Data Analytics — Certiport ***Dec 2025***
- Advanced Cloud Computing — DICT Philippines ***Mar 2024***
- Advanced Software Engineering — DICT Philippines ***Mar 2024***
- Programming for Beginners Using Python — DICT ***Jul 2024***
- Basic JavaScript for Web Development — DICT ***Mar 2025***
- SQL (Basic) — HackerRank ***Jul 2025***
- Scrum Fundamentals Certified (SFC) — Scrum.org ***Apr 2025***
- Six Sigma Yellow Belt — 6sigmastudy ***Apr 2025***
- Using HTML and CSS to Design a Website — DICT ***Mar 2024***
- SQL Injection Attacks — EC-Council ***Jul 2025***
- Information Security — Saylor Academy ***Jun 2025***
- Data Privacy – Good Governance — DICT ***Mar 2024***

AFFILIATIONS

- Student Supreme Council, LSPU – Treasurer ***2023–2025***
- Head of Freedom of Information, KATOTO ***2024***
- President, PGCA Inc. – Laguna Chapter ***2019–2020***
- President, PEMQMNHS Peer Educators Group ***2019–2020***
